DIRECTIONS TO ALAMITOS BAY

If you happen to have a Thomas Guide, the co-ordinates are p. 826 C3.

If you don’t have a T.G., take the 405 to the 710 South.

Exit the 710 at Ocean Blvd., and go east for several miles of stoplights.

If you look to the right, you’ll see the Queen Mary! That’s a huge ocean liner for those of you unfamiliar with the famous Long Beach Landmark.

Stay on Ocean. Take a right at the fork in the road, and keep on going east on Ocean.

Right after you pass the Bayshore Aquatic Playground (look for catamarans) on the right, Alamitos Bay will be on the left.

If Ocean comes to a dead end, then you’ve gone about a half mile too far.

Try to park anywhere east of 54th street. Look for the UCLA windsurfing trailer and crew on the north side of the street behind the short brick wall. We’ll probably be on the sand close by.

You can park on the street for free if you’re early and patient. Otherwise, bring lots of quarters. I think it’s 1 quarter for each half hour.
